SINC NESBITT

A battle for the office of Reeve in Anson, Hindon and Minden became certain sure Monday when

REG. BOOTH

nominations confirmed that erstwhile Stanhope reeve Sinc Nesbitt preferred to switch ANF fight

and had challenged longtime Minden Reeve Reg Booth for that municipality's highest office.

The chill that has crept into the Autumn air assures us that Winter is not far away. Already we've seen snowflurries and ice formation on water puddles. One good cold snap could put snow on the ground. Are you and your snowmobile ready for it?

The best way to get your snowmobile ready is to haul it out of summer storage and take it for a check-up to a qualified service centre. This is not terribly expensive and it could very well head off serious trouble later on. Of course, if you're a pretty good mechanic you might do this yourself, but be thorough about it. Remember that's a fairly intricate piece of machinery and it has been subjected to hot weather, cold weather, dry weather and wet weather, all the components of rust, corrosion and condensation. Treat it properly now and it will not let you down later. Getting yourself ready is another matter. There's more to preparing for snowmobiling than going to the closet for your suit and helmet. What about your club? Have you renewed your membership? Have you called the club president or trails chairman to offer your assistance. I am sure there are bridges to fix, windfalls to clear away and plenty of signs to tack up. A few hours of work now will return great satisfaction to you when you ride those trails later on.

If you're not a club member, why not? You do

ride club trails, don't you? Or, are you not really sure where club trails begin and public trails leave off?

An Ontario Government study has shown that 30,022 miles of snowmobile trails now exist in the Province. Of these, 222 miles are developed in Provincial Parks (public), 7,500 miles by the Ministry of Natural Resources (public) and 22,300 miles by snowmobile clubs (private or semi-private). So, you don't ride very far before you roll onto a club-developed trail!

Let me tell you about one snowmobile club that has worked long and hard to provide your snowmobiling pleasure. It's called the Haliburton County Snowmobile Association, HCSA for short, and has been around these parts since 1971. Seven years ago there were practically no trails in Haliburton County specifically for snowmobiling. There were several hundred miles of old logging roads overgrown with brush, trappers routes snaking amongst the trees and rocks to numerous beaver ponds, and of course portages connecting our many slushy lakes. Snowmobilers, just a few at first, got their heads together, saying, 'We can do better than this. Let's brush out a proper trail system, let's mark it, and map it, to give ourselves a decent place to ride. And while we are at it, let's promote Haliburton as a winter playground for our economy can sure stand a shot in their arm!'

The club has done all of those things. It now maintains approximately 500 kilometers of groomed trails (off the slushy lakes) upon which the signing for your convenience is improving year by year. This year some new trails will be added, and as well, smaller grooming devices will be utilized to smooth up feeder trails and portages so that you can get to the main trails easily. The club is currently putting together its fifth edition trail map.

In the promotion department the HCSA has ever maintained an active publicity campaign. This column is only one small part of the overall effort. The club has been written up in numerous magazine articles both here and below the border, has received good coverage in television news programs, and its maps have been circulated in more than a hundred thousand copies! The most recent promotion success was the September show in Mississauga, SNOWMOBILES '79, when many hundreds of accommodations brochures from HCSA Commercial Members were handed out to just a few of the show's 89,000 visitors. It's unfortunate

that only five businesses elected to participate for the demand for information on Haliburton far out-stripped the supply!

If you are still pondering whether membership in the club is worth the fee charged, let me fill you in on some of the returns you may expect. The Family Membership Fee (\$15.00 plus \$5.00 for each additional machine) includes membership in the Ontario Federation of Snowmobile Clubs for all members of the family having a valid licence. This O.F.S.C. membership costs the club \$2.50 and brings to you a helmet decal for each licensed member and the magazine SNOWMOBILE SPORTS which in itself is a \$3.50 value. From the club you will receive a membership decal for each machine registered in your membership, informational newsletters to keep you informed of club happenings and projects, and the satisfaction of being part of a \$40,000 trail improvement program.

That's right, Forty Thousand Dollars! That is the approximate amount of the HCSA's expenditures during the last year. Actually, an even Hundred Dollars for each and every member family! Where did the club get that kind of money? From membership fees, (including commercial members who pay a higher rate) from special fund-raising events, and from Government grants. It is a fact that available grants are scaled to the size of a club and to its demonstrated ability to carry out its projects. In this respect, the HCSA stands at the top of its class. It can do better only if it grows larger and gains more working members. Help it to do better by giving it your full support. When you do, you will be ready for the new season of snowmobiling!

LATE NEWS FLASH!

PRENTICE ROADS LIMITED has announced that it will loan the HCSA one new Alpine snowmobile for the '78-'79 grooming season. The machine will greatly relieve the workload on the club's two Bombis enabling them to concentrate more heavily on major routes. It is anticipated the Alpine will be stationed in the Donald area to work principally the trails in the Southern sector. This is just the latest in a long list of handsome contributions from Prentice Roads. The club is humbly grateful for the continuing support of this fine company.

Protest pesticide use

Ontario Hydro use of the pesticide 245T in the Minden area was termed 'irresponsible and unnecessary' this week by the Haliburton County Anti-pollution Committee.

In protesting the use of the hormonal chemical used by Hydro to retard the growth of foliage of possible danger to its lines the committee's spokesman and President, Sonya Holliday-Rhodes said her committee was 'extremely concerned' because '245T is a synthetic pesticide that may contain the extraordinarily poisonous dioxin.

According to the committee dioxin kills animals with smaller amounts than any other chemical ever tested.

The committee cited as an example of the pesticide's dangerous characteristics the case of two sisters who played in a yard for several hours after it had been sprayed with 245T.

The result was kidney damage, severe spasms, convulsions, a generalized ra-

sh, swelling of lips and eyelids and inflammation of the mucous membranes of the mouth, according to Mrs. Holliday-Rhodes. Specifically, it is charged that Hydro sprayed 245T in the Scotch Line Road area on October 16 and according to the committee this was later confirmed by a Hydro spokesman. The committee was told that the chemical works on the cells of trees causing them to literally outgrow themselves and die. Spraying has replaced cutting, a

costlier process.

'For Hydro to pollute the environment in this manner, is in our opinion, irresponsible and unnecessary'... 'man must face the reality of the important contribution chemicals make to disease. We have to show a degree of responsibility to today's children for they are tomorrow's world', the committee warned.

The Haliburton County Anti Pollution Committee can be reached at Box 507, Minden.

OVER 20 YEARS SERVICE
ON THE COUNCIL OF
ANSON, HINDON & MINDEN

Election "hots up"

...most seats up for grabs

Some 98 candidates broke from the starting gate in full stride this week in a race for 45 municipal office seats across Haliburton County.

Affected are various offices ranging from reeve through deputy-reeve and councilor to school board trustee.

And by the time nominations had closed Monday night and the smoke began to clear three reeves had been returned by acclamation, two of them with their deputy-reeves acclaimed as well.

Back without a battle is the Cardiff duo of Reeve Malcolm McGillivray and his deputy-reeve Mack Peters while in Sherborne, Mc Clintock and Livingstone Reeve Fred Baum and Deputy-reeve Don Shortreed were both acclaimed. Baum and Shortreed stepped up from deputy-reeve and councilor following the recent death of former reeve Doug Russell.

This will be Sherborne's first election in 6 years.

Only other reeveship acclamation was that of Murray Fearrey in Dysart et al.

With few exceptions the upcoming election looms as one of the hottest in many years.

In Lutterworth Township, the scene of troubled times and resignations earlier this year, five men want to be reeve. Two are former reeves: Don Williams and Pat Conaghan while two others, Lloyd Walker and Bert Shingler, are former deputy-reeves. Fifth candidate is incumbent Deputy reeve Ron Gambell.

Lutterworth's three council seats are sought by eight candidates, including incumbent reeve Bill Valentine.

In Minden, Sinc Nesbitt, present Reeve of Stanhope Township seeks to unseat long-time Reeve Peg Booth.

Nesbitt has as his running mate J.O. Jackson who, along with Bob Gorrie is trying to oust incumbent Deputy-reeve Doug Pritch-

ard.

At the council level Stu Brandon, Helen Johnson and Mike Vuksic have challenged incumbent councilors Len Lonsberry, Lyle McKnight and Al Coneybeare. Still another hot contest has opened up, this time in Dysart where hard-working Harold Bannon is being challenged by Tim Casey for deputy-reeve. While both Wards one and two are up for grabs in Dysart, Jack Denholm was acclaimed in Ward three. In Monmouth deputy-reeve Keith Tallman has challenged Reeve Gary Agnew for the Reeve's seat with Carman Coumbs and Harry E. Clark fighting for the vacant deputy-reeve's office. Eight, including 5 women seek the three council seats.

On the Glamorgan scene reeve Robert Fotheringham has been challenged by his deputy-reeve Larry Hunter and by Gordon Yewman.

Councilor Chessel Noseworthy has been acclaimed

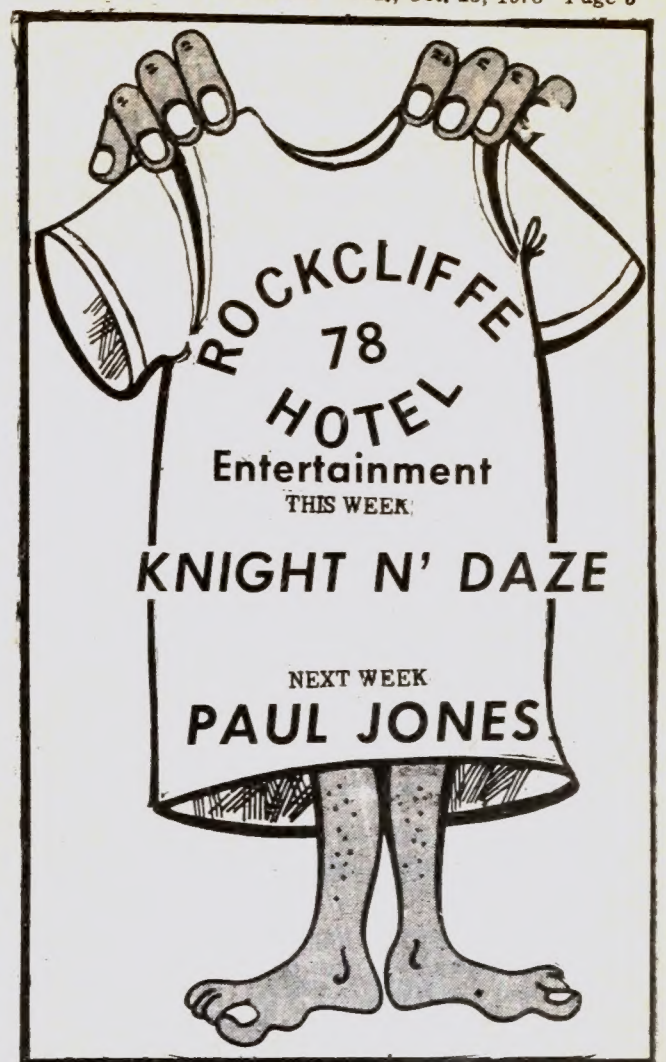

deputy-reeve, while nine are contesting the three council seats.

All council seats are on the line in Stanhope where deputy-reeve Jim Harrison is being challenged for the vacant reeve's seat by Bill Barber.

Battling for the office of deputy-reeve are councilor Elgin Stouffer and Douglas Cruthers while four seek the three council seats. In Snowdon reeve Bob Vick must fight the challenge of his deputy-reeve Don Smedmor while the vacant deputy-reeve seat will go to either Grace Simmons or John Francis.

In the race for school board there are contests in only three municipalities: Dysart, Anson, Hindon and Minden and Snowdon.

In Lysart nine seek the four trustee seats while in Minden incumbents Lloyd Johnson and Don Pooth have been challenged by Yvonne Fenney. In Snowdon George Simmons Jr., seeks to unseat incumbent Ralph Young.

Report from Queen's Park

by

John Eakins M.P.P.

Outlaws

To most Canadians it seems as though they are under almost continual siege by the country's postal workers.

Barely is one labor dispute settled, whether a strike or the threat of it, than they are all back at it again.

Meanwhile the costs go up and the service declines.

And for Canadians and Canadian businessmen who are so utterly dependent upon good postal service the situation is intolerable.

So much so that the Canadian government recently felt confident enough to invoke strong measures against striking postal workers.

Now, instead of complying with the government's explicit orders to go back to work, the striking postal workers and their union leaders have blatantly defied Ottawa and have indicated their intention to ignore the courts.

When any group or individual, however right its cause, refuses to obey its government, the courts, the law of the land, it says in effect that it is above the law of the land.

That's anarchy and such groups are outlaws.

Let's treat 'em as such!

The Metro Provincial Task Force's Report on Liquid Industrial Waste Disposal, which was released about a month ago, confirms our fears that a crisis has been permitted to develop with respect to liquid industrial waste disposal. One fact which is clear is that 20% of the wastes which were previously sent to the Peare Road site in Scarborough are, at present, unaccounted for: that site is now closed down. A further 20% is transported to the United States, but that border is expected to close to these wastes on December 31st of this year. No alternative disposal arrangements have apparently been made.

Nor has the Government introduced legislation enabling inspectors to enter private premises and monitor wastes, in spite of the fact that Metro Council requested such legislation as long ago as February 1977.

The Report utilizes a table giving the present whereabouts of Ontario's hazardous liquid wastes - a table which is questionable, to say the least, being based upon estimates and approximations. How can it be otherwise when the Ministry has not yet received replies to letters sent to some 240 industries requesting information on their waste disposal problems and practices? The picture is further clouded by the Ministry's failure to implement an effective way-bill system in Ontario.

Former Environment Minister George Kerr stated that industry should be responsible for its own waste disposal, absorbing the cost as a business expense. In direct contradiction, the Task Force recommends that 'the Ministry of the Environment, alone, or in conjunction with private enterprise, should acquire and approve sites and processes'. Regrettably, the Task Force has failed to address many of the problems raised in the Report itself. No legislation

is proposed to close loopholes in the Ministry of the Environment's way-bill system. There are no recommendations as to how the Province should acquire and license disposal sites. There are no incentives for established industries to re-design their processing facilities in order to recover, re-use, exchange, or sell their wastes. The Report refers only to new industries. There is no provision for requiring immediate replies from those industries which have been sent letters from the Ministry requesting information on the whereabouts of wastes which are generated.

The Task Force concludes: 'it would appear that no increase in the number of outlets will occur in the near future'. This conclusion, based on an enumeration of project proposals currently before the Ministry, is a further indication of the very serious problems of toxic liquid industrial waste disposal in Ontario - problems which urgently require solution.

A number of people have already questioned the wisdom of taking action based solely on the recommendations of the Metro/Provincial Task Force on Liquid Industrial Waste Disposal - recommendations which have been formulated on the basis of incomplete information provided by the Ministry of the Environment. Such recommendations must, inevitably, fail to recognize the wide-ranging and serious waste disposal problems of the Province.

The Metro Task Force has obviously not really been able to come to grips with the very serious environmental hazards posed by inadequate measures for the disposal of liquid industrial waste.

Many of the concerns and questions raised in the Report must be given urgent consideration by the Standing Committee on Resource Development.

Think small

by Jim Smith

Pass It On

The story was patently false. At first, everyone knew it was a lie.

By the second telling, however, it had become a "rumour".

On the third round, it was "reliably reported".

And, after that, everyone knew that it was the truth.

Tell a story - even the

most outrageous lie - often enough and it eventually comes to be recognized as the truth. Which is what has happened to the belief that small businesses in Canada are less active in export markets than big firms.

Some popular misconceptions really don't matter a great deal. Does it make the

slightest difference whether the telephone was invented in Brantford or Buffalo, for example?

But other misconceptions do matter. The issue of export drive is one of those issues that count. We live, after all, in a global economy and any group of firms which fail to compete for international business are letting the home side down, as it were.

For many years, the small business community has been claiming that it does pursue export markets vigorously while big business has been arguing that only large-scale firms are capable of getting into foreigners' pocketbooks. There has never been any solid evidence to support the claims by either side (although, when you realize that most big businesses in this country are subsidiaries of multinational firms, it doesn't make much sense to imagine those big firms competing with the head office for world markets). But a new study by Talaat Abdel-Malek of the University of Saskatchewan has finally cast a scientific light on the entire dispute.

Abdel-Malek has found - after surveying large numbers of big and little businesses - that there is no significant difference between the export attitudes of big business and those of small business.

In fact, small business in Canada is every bit as active in the export fields as are Canadian big businesses.

If anything, Abdel-Malek's study would seem to fail to take full account of the role of the smaller firms. A surprisingly large portion of the production by small manufacturing firms is done as sub-contracting on major contracts by big business. The big business assembles the components produced by the smaller businesses and then exports the final product. Even though the small firm's production is destined for the export market, it only counts as domestically-oriented for purposes of the survey.

Time and again, our nation's economic counsellors have advocated creation of more big businesses as the answer to Canada's international trade problems. Abdel-Malek's study shows that industrial strategy to be quite inadequate. Discrimination against small firms cannot be justified by international trade considerations.

A patently false story will always remain patently false, no matter how many retellings lend it a veneer of "truth". Small firms are as export-oriented as big firms. Pass it on.

NOTICE

In the matter of the Municipal Act and in the matter of a proposed by-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up, close and convey part of a certain allowance for road in lots 9 & 10, Concession 1, Township of Anson.

NOTICE IS HEREBY GIVEN pursuant to Section 446 of The Municipal Act, R.S.O. 1970 as amended, that the Municipal Council of the Corporation of the Townships of Anson, Hindon and Minden proposes to consider and if deemed advisable to pass at its regular meeting to be held at the Minden Municipal Council Chambers, Milne Street, Minden, Ontario on Wednesday, November 8th, 1978 at 2.00 pm a by-law to stop up, close and convey the following:

All that part of the 66 foot road and the 1 foot reserve adjacent thereto, shown on Registered Plan 357 contained within the limits of Parts 2, 3 and 9 of Plan 19R1312.

AND FURTHER TAKE NOTICE that before passing the said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said by-law and who applies to be heard.

DATED AT MINDEN this 11th day of October, 1978.

LETTERS

Minden, Ont.

Dear Editor and Reading Public:

May I on behalf of the community in which we have lived for the past eighty years pay humble tribute to one of our number who has recently passed away. Fred B. Wright and I left school on the same day and from the same desk in June of 1912. To use the words of Gordon Sinclair about himself we were high school drop-outs and of the class of fourteen only four remain at this date of writing.

We did not leave the community but later became involved in service of the community and the number of years shows the respect that was accorded us in that service.

Fred became Clerk of Minden Township in 1930 and held that position for several years. I became Secy Treas. for SS #1 Minden in January 1924 and held that position through all the various changes for 33 years.

Fred and I were contributors to the well being of the Agricultural Society of which we were both directors for several years. In Sports, Fred enjoyed curling and was often a participant at the various card parties held here.

In Fraternal circles we also had much in common. Fred became a member of the local L.O.L. early in life and was Master of the R.B.F. for ten years. He was a regular attendant until he passed away.

I became a member of the Masonic Order in 1923 and held important offices in that Order.

Fred and I spent many happy times when we met in town conversing of by-gone days of which we both had a part. This I submit as a tribute to the family of the departed from the people who knew us as we were.

Sincerely,

Vinton Loucks.

22nd October 1978

To The Editor
The Progress
Minden, Ontario

Dear Sir:-

In reference to Mister Conaghan's letter of the 13th October 1978, in your paper, regarding the current County of Haliburton Planning Strategy.

This is a sad example of uninformed fulminating! To suggest that this planning strategy has been introduced with undue haste and lack of consideration is a gross distortion of the facts!

Mister John McDermott, Senior Planner of Messrs Totten, Sims, Hubicki Associates Limited, has been conducting a series of studies and presentations regarding the County Planning Strategy. Following a number of meetings with the County Planning Committee, under the Chairmanship of Mister Sinclair Nesbitt; a meeting for all

members of the County and Township Councils was organized at the PineStone Inn on the 10th August, 1978. This meeting examined the subject in some detail with considerable discussion, similar meetings have been held in each Township or group of Townships since August.

Mister Conaghan has not approached the Lutterworth Council or any of the members since these meetings for information regarding the subject of his letter! IF Mister Conaghan had wished to gain a clear understanding of the planning strategy, he could also have attended any of a series of public meetings from the 2nd to the 5th October 1978! These public meetings were organised and conducted by Mister John McDermott at the offices of twelve (12) of the Township or Township Groups. These public meetings were advertised in the local press on the 20th and 27th of September 1978! Mister McDermott gave an extremely clear and concise description of the planning strategy, with adequate time for any questions.

The attendance at both the Lutterworth and Anson, Hindon and Minden public meetings in relation to their populations, was minimal to say the least, indicating either complete disinterest or confidence in the County Planning Committee!

To suggest that any Township oppose this very logical and flexible planning strategy, into which a most detailed and comprehensive study of all aspects of the subject has been incorporated, would not only be an 'ostrich-like' retrograde step, but extremely short sighted and ill considered.

Sincerely,

Glynne Lewis.

R.R. 1, Norland, Ont.
Oct. 20/78

Mr. W. Foote, Editor,
The Progress,
Minden, Ont.

Dear Bill,

If you recall, I said I was going to write to you when we were talking at the Warden's Banquet. I intended only to compliment you on your Editorial writing, but, after reading Mr. Conaghan's letter and your article 'Conaghan Throws Hat In Ring' I feel I must write much more.

Mr. Conaghan claims he would 'stabilize the mill-rate'. By careful budgeting we managed to drop the Municipal rate by 7 mills this year, not much, but at least it did not go up. We cannot control the County levies but I will quote a few figures from our financial statement of Sept. 30, 1978 to show you what we have done on the items we can control:

Telephone costs down \$562.28 - about 50% (fewer calls to buddies in Queen's Park, etc.) Meeting Expenses down from \$624.98 to \$31.95 -

over 94%
(no more long lunches with refreshments)

Travel and Convention fees down from \$2,155.82 to \$210.05 - over 90%

(we're staying home, mind-ing the store)

Mileage down from \$823.36 to \$274.00 - over 66% (no comment)

Subscriptions down from \$652.00 to \$226.00 - over 50%

I could go on and on but I feel these figures show that 1977 was an expensive luxury for Lutterworth.

Although I was only appointed to County Council, I have been honored to be there. I have both respect and admiration for Keith Tallman our Warden and for 95% of the members.

I wish them every success on Nov. 4 and 13 and hope that someday I can rejoin them. They and our County Staff work long and hard for the benefit of us all.

In spite of a bad start, 1978 has been a good one for Lutterworth. With the permission of Mr. Gambell and Major Lewis, I tried to replace our two members who resigned with 2 members of our 1975-1976 Council. When they declined we were lucky to persuade Bill Prentice and Al Stott to join us. They have proved to be intelligent, independent, yet co-operative council members. Our new garage is almost complete, our road program is well under way. And changing back to evening meetings has allowed the Public to attend without giving up time from their jobs, etc. Anyone who has appeared before our Council has been treated as a fellow ratepayer rather than as a subject seeking a Royal Audience. Regardless of who is elected, I hope this continues. I have digressed enough. I congratulate you, Bill, on your editorial comment and coverage of all our Haliburton problems. You deserve as wide a readership as possible. All the best to you and the Progress.

Yours sincerely,

Bill Valentine.

Hall's Lake News

Doreen Stinson

More leaves on the ground now than on the trees! Lovely weather over the weekend brought many cottagers and visitors up. Saturday was a beautiful day to work around outside and the vivid hues of Autumn are now a deep bronze or red.

The Election Campaign is on and everyone is asking everyone else what they think about this or that candidate. We all have to have our own convictions as to whom we should put into office and whether that person is qualified to act for the majority on municipal and local issues. As stated before, experience should certainly count for something. New people start at the bottom to learn and a whole year could be wasted just learning the ropes.

Mr. and Mrs. Peacock and Mr. and Mrs. Carey were at their respective cottages this weekend, also the Montgomeries.

Good to have Bonnie Holliday this weekend at home with me. The Neils joined us for dinner Saturday evening. Glad to hear that Lena Spence is recovering from surgery and that little David Revely is getting used to the cast on his broken arm.

The Neils were into Wellesley Hospital to visit Earl Langdon and report that he is in good spirits, but a very sick man. Our best wishes go out to him and to Alice who is spending an anxious time nearby.

Congratulations to Mrs. Mary Walker of Kushog Lake who just this past week celebrated her 82nd birthday! Members of her family gathered to honor their Mother.

The Wilsons are building a new cottage on the North Shore of this Lake and there are still homes being built on the Big Hawk Lake Road. Mrs. Marjorie Watson has had an addition built to her home. It is good to know there is progress and activity around the area.

Hallowe'en is soon coming up — a week from Tuesday. Children will likely be out in numbers. Watch for them when driving and give them something wholesome for a treat! Hope there are no terrible hand-outs as in some areas in other years.

Not long until Christmas! Some churches are already starting to practise their Christmas choral pieces and it isn't any too soon.

The Red Cross supper meeting at Dr. and Mrs. Lodenquai's nice home in Minden was a decided success. Almost 30 people were served delectable oriental dishes. The business meeting was capably handled by the President, Jim Burton with Eleanor Hall the efficient Secretary. The Campaign was definitely a success and the swimming program handled by Frank Waters and his helpers was also very worthwhile.

Damage light in two area crashes

Collisions were few and damage light this past week according to police.

A two vehicle accident a week ago Tuesday afternoon on County Road 6 caused damage estimated at a total of \$550.

Police report that Alla Hirsch, 23, of Haliburton, was eastbound in a 1976 van. While making a left hand turn the Hirsch vehicle was overtaken by a 1975 pickup driven by 16-year-old Michael Iles of Haliburton. In the process of passing, the Iles vehicle came in contact with the Hirsch van causing an estimated \$200 damage to the van and \$300 damage to the pickup.

Provincial Constable Bill Clendenning investigated the mishap.

A single vehicle accident occurred last Saturday on County Road 13. Police report a late model motorcycle, operated by 19-year-old Jennifer Smith of Islington, failed to negotiate a curve while southbound, causing the motorcycle to enter the north ditch.

Damage was estimated at \$500.

Investigation by Provincial Constable Ron Buchanan.

Tourism "muscle" a must

This was the warning issued by Victoria-Haliburton M.P., John Eakins a week ago Monday to members of the Kingsway Kiwanis Club in Toronto.

The government of Ontario must give a higher profile and status to Ontario's tourism industry.

He called for a division of responsibilities within the government to reflect this.

Mr. Eakins said that Ontario must counteract a massive advertising campaign by the northern U.S. states to lure Canadians to their country by offering the Canadian dollar at par with the U.S. dollar.

'The Americans', he said, 'are being most aggressive during their slower season and the government of Ontario is going to have to show some muscle and display leadership to recoup some of the badly needed tourism dollars.'

The Victoria-Haliburton member said that the 10% tax on meals over \$6 is discriminatory. Why is it you can buy a fur coat and other commodities for 7% and have to pay 10% on meals? This tax should be no higher than other areas of taxation.

John Eakins said he favored lowering the sales tax permanently below 7%.

Speaking on small business he said that he hoped Mr. Davis would honor the commitment of the late John Rhodes to bring his private member's bill on Small Business before a Legislative Committee this fall.

Perform a death-defying act.

OMELETTE MAGNIFIQUE

If you're having the crowd in before the football game, serve them an economical, nutritious dish that can be whipped up in the blender without any fuss. This omelette contains more protein than what you need to fulfill your daily requirement -- an extra

added plus.

By using your blender, you are assured of a light, fluffy, fool-proof omelette which will be cooked evenly throughout without your having to watch it until it's done. It's quick and ready

to serve in any situation.

It can be served as a main course or as a delicious dinner dish when served with a slice of french bread and a cold beverage. This recipe can be turned into an attractive, easy-to-prepare party dish by adding fruit fillings.

BRUNCH DINNER OMELETTE

This recipe makes two omelettes. Double your recipe to serve four.

- 1/2 cup cooked mushrooms
- 2 tbsps. butter
- 6 eggs
- 1/2 tsp. salt
- 1 tsp. pepper
- 1/2 cup grated Mozzarella Cheese
- 3 slices cooked ham (optional)

Heat butter in medium skillet. Beat eggs, salt and pepper in blender for one minute. Pour half of the egg mixture into skillet and cook (COVERED) for two minutes over medium-high heat.

Come to table, turn out on fresh towels. Run a knife and add half of this combination to one half of the omelette. Gently fold second half over, cover, reduce heat to low and cook for 10

minutes. Turn out, dust with powdered sugar. Keep warm while you cook the second omelette.

Fillings such as onions, sliced tomatoes, bacon, sausage, salami or green pepper may be cooked ahead of time and added to the finished omelette. If precooked fillings are used, the final two minute cooking time should be reduced to one minute.

DESSERT OMELETTE

Prepare as above, but eliminate the salt and pepper and add 1/4 cup sugar to the egg mixture instead.

For a fresh fruit filling, chop

fruit into small pieces and mix well with 1/4 cup sugar. Fill cooked omelette, fold, and dust the top with icing sugar. Serve either warm or cool.

To use a precooked fruit filling, simply add to finished omelette, fold over and dust the top with icing sugar.

C.J. Watson hereby gives notice that he has, under Section 8 of the said Act, deposited with the Minister of Transport, at Ottawa, and in the office of the District Registrar of the Land Registry District of Haliburton, at Minden, Ontario a description of the site and the plans of a bridge and dam (proposed to be built) over Fear Lake Narrows in Livingstone Township, Lot 9, Concession 2, County of Haliburton, Province of Ontario.

And take notice that, after the expiration of one month from the date of the publication of this notice, C.J. Watson will, under Section 8 of the said Act, apply to the Minister of Transport for approval of the said site and plans.

Dated at Minden this 25th day of October 1978.

PROGRESS SPORTS

Huskies have large camp ...first game November 3rd

The Haliburton Northernways Huskies have opened their training camp for the coming season. All indications point to a rigorous camp with over 35 hopefuls in attendance. Two former Minden Juvenile players, Steve Davies and Jerry Campbell, have already been signed by Hu-

skie management.

The Huskies have some big holes in their lineup to fill with the loss of Tom Curry to overage and Larry Stinson who has left to go to university.

Both goaltending positions are also open as Myles Maugham and Randy Elli-

son are now overage.

With the addition of some consistent hockey players the Huskies could again be a tough contender. Novem-

ber 3 at the Dysart Arena will tell the tale when the Huskies take to the ice in their home opener against Bewdley.

Minden adds optometry building

Construction on Minden's new professional building nearing completion will contain a new optometrist. Optometrist Dr. Klaus Brucher will be moving here

from Toronto in the near future to establish a local optometry practice. The building is being built in two phases, with the sec-

ond phase to begin next year. The exterior of the cement block building will be finished in attractive brick. Phase two will see

the addition of apartments on a second floor. Construction of the building is by North Construction of Bracebridge.

Hunters ...think safety

Christmas decorations, guest speaker's topic

Doreen Henry of the Royal Botanical Gardens will be the special guest lecturer this Thursday on Christmas arrangements and decorations.

Sponsored by the Minden Horticultural Society, the lecture-demonstration will be held at the Minden Municipal Building.
Time is 7.30 pm.

DRIFTWOOD RESTAURANT Haliburton ANNOUNCES

It will be closed on Mondays for the Winter months

DEAR LUTTERWORTH VOTERS:

Thank you for your help and support both for myself and the present council. What began as a difficult term has ended a good one.

If I am re-elected I will continue to serve you as I have always tried to

Sincerely,

Bill Valentine

With the hunting season here the O.F.P. are reminding all of us that there are several basic gun-handling rules to be observed if you intend to hunt in safety.

Hunting accidents claim about 125 lives each year, usually because the most simple rules have been broken.

* Never consume alcohol before or during a hunt.
* Know the identifying features of the game you intend to hunt.

* Never shoot in the direction of buildings or livestock.

* You cannot depend on the common sense of the hunter beside you—wear bright orange.

The handling of firearms requires great care.

* Always handle a gun as if it were loaded.

* Never climb a tree or fence with a loaded firearm.

* Always carry your gun so that you can control the direction of the muzzle.

* Unattended firearms should always be unloaded. Few hunting deaths are accidents—they are usually caused by negligence.

Don't be at either end of an 'accident', use common sense measures and enjoy a safe hunting trip.

Cards of Thanks

The family of the late Caroline Pierce wish to express their sincere thanks and appreciation to their many friends for their prayers and words of comfort during their recent bereavement. A special thanks to the staff at Hyland Crest Senior Citizen's Home for their tender loving care; to Mr. Monk and staff who went the extra mile; to Rev. Brubocher of Minden for his words of hope and faith; to Rev. Patterson of Live-ly for his inspirational committal service; to the Lochlin Ladies who served and babysat; to all those who called and sent donations of food. Thank you. During a time of sorrow, we learn how much our friends really mean to us. Sincerely, The Family of the Late Caroline Peirce. 1-1c

Attention Hunters

HELP THE MINISTRY COLLECT INFORMATION

Turn in the lower jaw of your deer or moose at any District Office of the Ministry of Natural Resources or a game checking station, preferably as close as possible to where you hunted. Jaws must be received on or before December 31, 1978.

In addition to its regular hours MNR's Minden and Haliburton offices will be OPEN 9-4
Sat., Nov 11
Sun., Nov. 12

You will receive this crest in exchange for the entire lower jaw of your moose

Deer Jaw

We get valuable information about the age of the animals. You get an attractive crest and a better managed resource.

Moose Jaw

HELP US COLLECT HIDES FOR NATIVE PEOPLE

You will receive this blaze orange hunting cap in exchange for a suitably prepared deer or moose hide (a pamphlet "Preparation of Moose and Deer Hides" is available at Ministry offices).

Hides may be left at most Ministry of Natural Resources offices or at designated collection centres.

We get hides for distribution to native people. You get a hunting cap and an opportunity to provide material for native crafts.

YOUR COOPERATION IS APPRECIATED!

Ministry of
Natural
Resources

Hon. Frank S. Miller
Minister
Dr. J. K. Reynolds
Deputy Minister

Gerald C. Bain, Clerk
Township of Stanhope
RR #1, Haliburton, Ontario.
KOM 1SO.

The country of Indonesia is actually a huge chain of 13,677 islands of which 6,044 are inhabited.

To dedicate new church

by Shirley Cooke

Construction of the new Trinity United Church, Bobcaygeon, has now been completed, and the Service of Dedication will be held Sunday, Nov. 5th, 1978 at 3 pm.

Special guest speaker will be the Rev. Wm. J. March, M.A., D. Th., of Midland, Ontario, who is well known in Bobcaygeon and area, having preached many times in Trinity Church. Rev. March is the author of 'Look Up and Lift Up' and 'Christian Belief and Christian Practice' as well as other writings.

The new church is an extension to the original sanctuary built 118 years ago, and will continue to be used as the church auditorium to accommodate all large gatherings, church suppers and community functions.

The new building includes a large Narthex, a Sanctuary seating 300, fellowship room, modern kitchen, six Sunday School classrooms, nursery, church office and minister's study. In future it is planned to finish the gallery to provide seating for another 127 people.

Most personal self-improvement courses are legitimate, but...

you should know what Ontario is doing to help you recognize the few that are not.

Teaching people to improve themselves is big business these days. While such courses and techniques can have a positive influence on your social life and well-being they can also be used to cheat and exploit.

Self-improvement courses involving long periods of time and large amounts of money should include a contract for you to sign.

Ideally, the contract is to protect you by setting out the exact money to be paid and the services to be provided.

So before signing a contract make sure your interests are protected.

Beware the Dream Merchant!

Your Ontario Ministry of Consumer and Commercial Relations has published an easy-

- spells out details that should be included in every contract you sign;
- gives advice on how to deal with payments for self-improvement and mail order offers.

For your free bulletin, entitled "Beware the Dream Merchant Who Promises a New You" write to:
Consumer Information Centre
Ministry of Consumer and Commercial Relations
555 Yonge Street
Toronto, Ontario M7A 2H6

to-understand information bulletin which:

- describes some of the dishonest schemes;
- tells you how to recognize them;
- advises what your rights are under The Business Practices Act and The Consumer Protection Act;

Frank Drea,
Minister of Consumer and Commercial Relations
William Davis, Premier
